

In the Specification:

Please amend the specification as follows:

In the title:

RADIO SIGNAL POSITIONING ~~A novel time delay estimation technique for spread spectrum systems~~

Page 1, first paragraph:

The present invention relates generally to positioning of mobile units by means of radio signals. More particularly the invention relates to a method for determining a position of a signal transmitter ~~according to the preamble of claim 1~~, a sensor ~~according to the preamble of claim 12~~ and a system ~~according to the preamble of claim 15~~. The invention also relates to a computer program ~~according to claim 10~~ and a computer readable medium ~~according to claim 11~~.
